

KPMF SERIES

KPMF MSED610

Water Filtration

Single Manifold Part #: **KP-300-777**
Replacement Cartridge: **KPMF MSED610**

APPLICATIONS

Ice Machine Coffee/Tea Espresso/Cappuccino Steamers/Combi-oven Fountain

- Optimal for heavy sediment and dirt capacities ($\geq 3+$ micron particulate filtration)

DESIGNED TO

- Remove particulates to provide improved taste, clarity and appearance
- Collect and trap dirt, debris and sediment in water down to a 3 micron particulate size
- Improve the performance, reliability and life of your downstream equipment and/or additional filters

PERFORMANCE

Micron Rating	3
Min./Max. Pressure	40 - 100 psi
Min./Max. Temp.	40°- 100°F
Inlet/Outlet Size	3/4" FNPT
Shipping Weight	8 lb
Dimensions (W/D/H)	14" x 9" x 19"

Performance may vary based on local water conditions

FEATURES & BENEFITS

- Provides 10 times greater dirt and sediment holding capacity than the KPMF SED620
- 10" Sediment filter can be used as a single head stand alone pre filtration system or in conjunction with any KPMF/SMF water filtration systems
- Compatible with any double, triple and quad KPMF/SMF manifold system
- Safeguards your fountain beverage machines from the damaging effects of sediment, dirt and debris, helping to preserve downstream water filtration systems.
- Helps to deliver high quality water to your company's fountain and ice machines and help you manage your coffee/tea beverage specification.
- Helps to protect downstream water using equipment and can help to reduce unnecessary downtime.
