WATER TREATMENT PRODUCT CATALOG

THANK YOU FOR YOUR PARTNERSHIP

We are honored that you chose to purchase our KineticoPRO® water treatment systems to help provide safe, clean water.

TABLE OF CONTENTS:

1	FILTERS
2,3	Prefilters
4	Polyphosphates
5, 6	Carbon
7, 8	Carbon + Polyphosphates
9	Carbon + Pleat
10	Carbon + Polyphosphates + Pleat
11, 12	Specialty Filters
13-15	Filter Manifolds
16-17	Built-in-bypass Manifolds
18, 19	POE Filters
20	SOFTENERS
21	CC Series
22	CP Series
23	Hydrus Series
24	REVERSE OSMOSIS
25	Storage Tanks
26	NSC and W-Series
27	S-Series
28	ROAX P-Series
29	Accessories

TOTAL WATER CARE DELIVERS...

Optimal water conditions come from a combination of filtration, reverse osmosis and softeners. KineticoPRO prescribes the ideal equipment for your location based on your specifications and provides the ongoing support and maintenance to alleviate you from the burden of water optimization.

GUEST EXPERIENCE

Favorable water conditions, recipe compliance, and consistency across various locations are integral to a memorable guest experience

OPERATIONAL EFFICIENCY

Customized configuration of our products and services minimizes equipment downtime and optimizes equipment performance

EQUIPMENT PROTECTION

Our total water care portfolio helps to protect your equipment, reduce the number of service calls, and reduce your total cost of ownership

ENVIRONMENTALLY FRIENDLY

Our responsible water care program focuses on creating products that need to be replaced less frequently, creating less waste

WHAT MAKES OUR PRODUCTS DIFFERENTIATED?

Our Hollow Carbon filtration technology is a thermal treatment of activated carbon. Both intuitive and flexible, the filter configuration and activated carbon combine to improve water quality that affects taste, odor and scale-causing minerals, which degrades water systems. With water quality varying from region-to-region we offer a wide variety of filter designs, types and sizes to ensure you get the water quality you deserve.

HIGHER CAPACITY

HIGHER FLOW RATE

LOWER PRESSURE DROP

HOLLOW CARBON TECHNOLOGY

BROAD OFFERING (POU & POE)

KPMF SERIES

OPTIMAL FOR: HIGH VOLUME, CAPACITY & FLOW REQUIREMENTS

HPF SERIES

OPTIMAL FOR: STANDARD VOLUME, CAPACITY & FLOW REQUIREMENTS

QCM SERIES

OPTIMAL FOR: BASIC+ VOLUME, CAPACITY & FLOW REQUIREMENTS

POE FILTRATION

OPTIMAL FOR: LARGE COMMERCIAL, INDUSTRIAL, AND MUNICIPAL FACILITIES

KPRO FILTERS – Prefilters

KineticoPRO’s Manifold Configuration Flow Path

Applies to our KPMF and HPF water filtration systems

Water filtration requirements may vary by location depending on water quality and the number of water-using applications. That is why KineticoPRO has designed our modular manifold configurations to meet the needs and challenges of all water filtration specifications.

Untreated water
Treated water

Single Manifold Configuration

Series Manifold Configuration

Split Manifold Configuration

Parallel Manifold Configuration

Series Parallel Manifold Configuration

* The above illustrations are representative examples for each manifold system type. Please note these manifolds may also come in Double, Triple and Quad configurations.

WHY A BUILT IN BYPASS?

A water filtration system with a built-in bypass diverts water around your water filtration system. This means that you can turn off the water filter and still have access to an uninterrupted supply of water to your downstream equipment. This enables your business to keep operations running smoothly while you change out your exhausted water filters or perform scheduled maintenance on your water filtration system. Once you have successfully changed out your new filters, simply turn the bypass valve back to off position and you are receiving high-quality filtered water back to your operations quickly and efficiently.

BUILT IN BYPASS	KPMF	KPMF	KPMF	KPMF

KPRO FILTERS – POE

SYSTEM MODEL	CP 213f OD		
Part #	11246	11244A	11289
Media	Macrolite Filter	Carbon Filter	Empty
Common Market Segments	Restaurants, Laundromats, Car Washes, Breweries, Agriculture & More		
Flow & Capacity Rates	High, Medium		
System Dimensions (H x W x D)	60" x 27" x 13"		
Flow Rates	15 - 20 gpm / 57 - 76 Lpm (15 / 30 psid)		
Use Case	≥ 5 micron	Dechlor/Organics	N/A
Backwash Flow Rate gpm/Lpm	6 / 22.7		
Backwash Volume gal/L	130 / 492		
Backwash Time (min)	20		

KPRO FILTERS – Chloramine Reducing Systems

SYSTEM MODEL	CRS 1060	CRS 1100
Media	Activated Carbon	
Common Market Segments	Restaurants, Laundromats, Car Washes, Breweries, Agriculture & More	
Flow & Capacity Rates	Medium , High	
System Dimensions (H x W x D)	42" x 10" x 10"	56" x 10" x 10"
Flow Rates	4 gpm	
Chloramine	65,000 gallons	119,700 gallons
Min./Max. Pressure	15 - 125 psi (103.4-861.9 kPa)	
Min./Max. Temp	35° - 120°F (2°-49°C)	
Certifications	NSF/ANSI 42, NSF/ANSI 61, NSF/ANSI 372, CSA B483.1

Note A: The "X" in the system size description refers to the number of tanks: Simplex = 1, Duplex = 2, Triplex = 3

SOFTENING SOLUTIONS WITH A **SOLID IMPACT**

KineticoPRO’s commercial water softener systems are designed to handle the varying water demands of your individual business—from the smallest intermittent process to the largest continuous flow application. Our industrial-strength, non-electric commercial water softeners operate on actual water demand—not a timer or computer. This increases efficiency, lowers maintenance costs and saves you materials, time—and money.

INNOVATIVE COMMERCIAL RO SYSTEMS

Our reverse osmosis water treatment equipment is engineered for a wide variety of applications. These systems reduce critical contaminants to provide great-tasting drinking water, high-quality process water and improved commercial equipment performance. Our specialty food and beverage RO line includes high-efficiency systems that operate at maximum recovery for lower water consumption.
