

# CLM SERIES

## WATER FILTRATION

CLM620 • CLM620-PP

Improve the customer experience by removing chloramine from water.

### CLM Overview:

Chloramine is a common disinfectant for water, but it negatively effects the taste and smell of water and ice, and degrades beverage quality. Kineticopro's premium, high-capacity chloramine removal filters ensure your guests have a positive and consistent guest experience.

#### Guest Experience

- Removes chloramine from water for consistently better-looking, more flavorful beverages and higher quality ice
- Serve water that's free from the unpleasant taste and odor of chloramine and chlorine

#### Operational Efficiency

- High flow/high capacity systems with minimal pressure drop provide a consistent flow of water
- The modular system design offers flexibility. Can be installed as a standalone solution or combined with other filtration and CLM cartridges to boost capacities and flow rates as needed
- Long lasting, high-capacity filtration means less frequent change-outs and lower operating costs

#### Equipment Protection

- Optimizes fountain and brewing equipment for your operations by reducing sediment and scale causing minerals
- Enhances water-using equipment performance by maintaining a steady flow rate
- Reduces scale build-up and pitting on ice machines helping to prolong equipment life and minimize service calls

### APPLICATION USE

#### Fountain

Enhance flavor & reduce odors

#### Ice Machine

Deliver crystal clear ice

#### Coffee/Tea

Maintain recipe compliance

#### Espresso/Cappuccino

Achieve optimal flavor profile

#### Steamers/Combi Ovens

Protect equipment from scale build-up

## MORE THAN ONE IN FIVE AMERICANS USES DRINKING WATER TREATED WITH CHLORAMINES.\*

Many municipalities are switching from chlorine to chloramine as their primary disinfectant, so your current filtration system may not properly protect your water anymore. To learn more, check with your local water utility or call KineticoPRO to have your water tested. We can also share the benefits of a CLM Series water filter system.

 Denotes states with cities who utilize chloramine as primary disinfectant.

## SPECIFICATIONS

	KPMF CLM620	KPMF CLM620-PP
<b>Primary Applications</b>	Fountain Drinks, Coffee/Tea, Steamers/Combi Ovens	Ice Machine, Coffee/Tea, Steamers/Combi Ovens
<b>Filter Media</b>	Ultra Catalytic Carbon	Ultra Catalytic Carbon & Polyphosphates
<b>System Size (H x W x D)</b>	29" x 14" x 9"	
<b>System Shipping Weight</b>	17 lbs	19 lbs
<b>Manifold Configurations</b>	KPRO Single, Double, Triple, Quad Systems	
<b>Micron Rating</b>	1	1
<b>Chlorine Reduction</b>	100,000 gal @ 10GPM	100,000 gal @ 10GPM
<b>Chloramine Reduction</b>	60,000 gal @ 2.5GPM 45,000 gal @ 3.4GPM	60,000 gal @ 2.5GPM 45,000 gal @ 3.4GPM
<b>Scale Reduction (gal.)/ Flow Rate (gpm)</b>	N/A	Up to 100,000 gal @ 10 GPM

## EFFORTLESS TOTAL WATER CARE

KineticoPRO offers a complete range of commercial water treatment solutions. Based on a per-location water analysis, we will work with you to prescribe the ideal water filtration, softening, and reverse osmosis solutions to optimize your water quality and protect your equipment.
