

IcePRO SERIES

KPMF IPF620-PP

Water Filtration

Single Manifold Part #: **KP-300-777**
 Replacement Cartridge: **KPMF IPF620-PP**

APPLICATIONS

Ice Machine

Frozen Carbonated Beverage

- Volume: High
- Optimal for 1,200-1,800 lb ice machine

DESIGNED TO

- Remove disinfectants and contaminants, providing high quality water to your ice machine
- Enhance guest satisfaction by improving ice quality and minimizing cloudiness
- Prolong equipment life by reducing scale and slime build-up
- Minimize pressure drop and reduce scale to boost ice production efficiency

PERFORMANCE

Chlorine Capacity	100,000 gal @ 10gpm
Chloramine Capacity	35,000 gal @ 1.7gpm
Scale Reduction	Up to 100,000 gal @ 10gpm
Min./Max. Pressure	40 - 100 psi
Min./Max. Temp.	40°- 100°F
Inlet/Outlet Size	3/4" FNPT
Shipping Weight	18 lb
Dimensions (W/D/H)	14" x 9" x 29"

Performance may vary based on local water conditions

FEATURES & BENEFITS

- Activated hollow carbon with NO binding agent delivers high capacities, high flow rates, and minimal pressure drop
- Engineered polymer construction for high durability and extended service life
- Modular design allows for easy capacity expansion
- Time released polyphosphate increases protection of equipment from scale build up

Tested and certified by NSF International against NSF/ANSI Standard 42 for the reduction of chlorine, chloramine, particulate class I, and taste & odor.
