

NanoSmart™ SERIES HC416-MP-PP Water Filtration

Single Manifold Part #: **KP-300-651**
Replacement Cartridge: **HPF HC416-MP-PP**

APPLICATIONS

Coffee/Tea

Espresso/
Cappuccino

Steamers/
Combi-oven

Ice Machine

- Volume: Low - Medium

DESIGNED TO

- Reduce scale formation and pitting to prolong equipment life
- Provide clean ingredient water to your operations
- NanoSmart™ technology helps to remove undesirable impurities including bacteria, delivering exceptional water quality
- Reduce chlorine, undesirable taste & odor, class 1 particulates, sediment and scale formation

PERFORMANCE

Chlorine Capacity	40,000 gal @ 2.5gpm
Scale Reduction	Up to 40,000 gal @ 2.5gpm
Min./Max. Pressure	20 - 125 psi
Min./Max. Temp.	40° - 100°F
Inlet/Outlet Size	3/4" FNPT
Shipping Weight	4 lb
Dimensions (W/D/H)	10" x 5.5" x 19.5"

Performance may vary based on local water conditions
EPA Est. No. 92879-GA-1

FEATURES & BENEFITS

- Activated, hollow carbon with no binding agent delivering high capacities, high flow rates, and minimal pressure drop in a compact solution
- NanoSmart technology utilizes electro-adsorptive material designed to help reduce microbial contaminants and chemicals
- Time released polyphosphate increases protection of equipment from scale build up
- Engineered polymer construction for high durability and extended service life
- Modular design allows for easy capacity expansion

Tested and certified by NSF International against NSF/ANSI Standard 42 for the reduction of Chlorine, Taste & Odor and Particulate Class I.
