

# IC Series

## SMF IC620

### Water Filtration

System Part #:	<b>80-6200</b>
Replacement Cartridge:	<b>108-020</b>

### APPLICATIONS

Fountain

Coffee/Tea

Juice

Drinking water

- 1 to 2 Carbonator
- Volume: High

### DESIGNED TO

- Improve taste of fountain beverages
- Provide clean ingredient water to your operations
- Reduce chlorine, chloramine, taste & odor, class 1 particulates, and sediment.

### PERFORMANCE

Chlorine Capacity	<b>100,000 gal @ 10GPM</b>
Chloramine Capacity	<b>35,000 gal @ 1.7GPM</b>
Min./Max. Pressure	<b>40-100 psi</b>
Min./Max. Temp.	<b>40°- 100°F</b>
Inlet/Outlet Size	<b>3/4" FNPT</b>
Shipping Weight	<b>17 lb</b>
Dimensions (W/D/H)	<b>14" x 9" x 29"</b>

Performance may vary based on local water conditions

### FEATURES & BENEFITS

- 100% activated Hollow Carbon media. NO binding agents
- Turbo Flow technology evenly distributes water flow and helps to reduce plugging
- Engineered polymer construction for high durability and extended service life
- Minimal pressure drop allows for high flow rates
- Modular design allows for easy capacity expansion

Tested and certified by NSF International against NSF/ANSI Standard 42 for the reduction of Chlorine, Chloramine, Taste & Odor and Particulate Class I.
